

JAMES SULLIVAN

Software Engineer

(616) 450.9290 · jsullivan2847@gmail.com · Brooklyn, NY · [LinkedIn](#) · [Github](#) · [Portfolio](#)

I'm a software engineer with a background in audio and service. After a year of self teaching and an immersive bootcamp at General Assembly, I'm eager to apply my experience and ever-growing knowledge-base to a new position. I have a love for learning, and I value teamwork and communication. In the past I've toured as a musician and worked in fast paced kitchens. Those experiences taught me to work with a great sense of urgency and the ability to bring positive energy to any team.

SKILLS

Languages - JavaScript, Python, HTML, CSS

Libraries & Frameworks - Node.js / Express, React, Next.js, TailwindCSS, Django, Unity

Database - MongoDB, PostgreSQL, SQL

Other - AWS Bucket, EJS, Mongoose, Git, Github, Heroku, Netlify, Postman, Google Maps API, Figma, Invision, Trello

SOFTWARE DEVELOPMENT PROJECTS

Streepflix | [Github](#) | [App](#) | Javascript / React / MongoDB / Node / Express

A netflix clone with trailers and user profiles. Serves an index of movies from just one actress - Meryl Streep.

- React frontend with Express backend. Uses NPM packages to render a YouTube movie trailer on click.
- Worked on this project with a group as the lead front-end engineer and managed the Git repositories and deployment.

Hide & Seek | [Github](#) | [App](#) Javascript / JQuery / HTML5 / CSS

A geographic guessing game where the user is given a random street view location and the user tries to match the location on a separate map as best they can for points, allowing users to prove how well they know their city.

- Used Google Maps API & JQuery to render dynamic maps wired with event listeners and location parameter options
- Designed the layout to be responsive via CSS media queries, grid, and flexbox.

MyPix | [Github](#) | [App](#) | Python / Django / PostgreSQL / AWS Bucket

A user-based photo sharing platform

- Uses Django template views to serve a dynamic timeline of photos with user profiles
- Full CRUD app with user authentication, authorization, and AWS file upload

PROFESSIONAL EXPERIENCE

Bottle Shoppe, Wine Sales Associate | Brooklyn, NY

March 2021 - April 2022

- Maintained a well curated and extensive inventory of over 300 new and old world wines.
- Provided expert recommendations for wine pairings, profiles, and personal taste to regular customers.

Squibb Coffee & Wine, Cafe Manager | Grand Rapids, MI

Jan 2018 - March 2021

- Oversaw a wine, cheese, and charcuterie program, developing recipes for a scalable seasonally changing menu.
- Handled customer relations, inventory management, social media and marketing.
- Worked with owners of the business on big picture decisions before and throughout the pandemic.

DAAC (Division Avenue Arts Collective), Sound Engineer | Grand Rapids, MI

August 2016 - March 2020

- Ran events at multiple venues including setup, volunteer management, and live mixing audio.
- Maintained an ever-growing database of booking contacts and scheduling in Google Sheets.
- Engineered live sessions in studio and remote using multiple DAW's.

EDUCATION

GENERAL ASSEMBLY | REMOTE

Software Engineering Immersive

April 2021 - July 2021

Full-stack software engineering immersive student in an intensive, twelve-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration.

Grand Rapids Community College | GRAND RAPIDS, MI

Associate of Science in (Architectural Technology)

2014-2015
